

This is how they will attack your country.

It will come as surprise and you will not be ready.

Just like they did in Syria, they will suddenly take many hostages in many place in America at once.

Boko Haram does this in Africa and is one of their heroes. Boko Haram captures school children for hostages and they will do it to you.

File photo from Boko Haram video purportedly showing some of the schoolgirls captured in Chibok in 2014.

They will probably capture many American small towns at once. Cutting off cell phone towers and communications from these towns will be easy for them. All of these people will be hostages. Do not think that hunting rifles will stop their big machine guns.

In your country you have people who are too stupid to understand war. They have never had to run from the likes of Muhamud.

Even some stupid people in your country are being used by CAIR and other people in your politics. Why do you think your own people in congress want gun control? Who will fight back when they move to overtake your small towns? You are politically correct. They aren't.

They want to make America a caliphate. This is their goal. They might demand that a Muslim be installed in the White House or they will start killing the people in the towns. This is how they work. They've done it before. I don't know totally what demands they will make. It might be whatever they think of at the moment.

ALHAYAT

Look again where the caliphate of Armenia is. This happened because Muslims wanted to make it a caliphate so just kept migrating there until they were powerful. Then the Armenian government fell and they became under muslim rule. They do this everywhere they go and this is what they're doing to you. And they will never stop unless you stop them by force.

Once they capture your villages they will make demands. I don't yet know what they'll demand, but I've heard they may tell Chase Bank or other big bank they want all they're money.

I tell you all this because this is what they do. They kill people to put themselves at the top. When you are sleeping Islam is not. They are working in their mosques to overcome you. I told you before they are worse the Hitler and all the others. Please tell someone who can do something about this to start doing it.

1) Make Islam illegal 2) get rid of their mosques 3) Deport the ones that want to stop you, even if they call themselves American citizens. They are Islam citizens.

4) Do not believe one single word that comes from their mouths.

This is what all mosques should look like.

Thank you for reading.
